About Me

I am an IT Engineering Student proficiently skilled in the technologies of Web Development and Modern Programming Languages. Working with passion and to beat the "best-yets" is my work ethic. All of my projects cover the aspects of user-friendly design, systematic & well-documented code, Accessible UI and integration of several technologies.

Professional Experience

Web Development Internship | Maatti Handcrafts
Sept 2022 – Present

- Designed the UI/UX of the enterprise's website
- Discussed the design and development practice with the founder
- Used different technologies including HTML, CSS, JS and ReactJS among other libraries to develop the website and add other functionalities
- Added a Payment Gateway to help order products.
- Helped register the domain and deploy the website

Content Head | Alumni Cell, VIIT
July 2021 -July 2021

- Helped organise various sessions & webinars by college alumni to help students discover opportunities in Tech.
- Networked with various alumni through LinekdIN and Emails.

Associate General Secretary | Entrepreneurship Development Cell, VIIT
July 2021 -July 2022

- Managed cell's resources in an efficient and well-documented manner.
- Helped organize various club activities and initiatives to promote and kindle the spirit of entrepreneurship in students.
- Introduced various new methodologies in the cell's working and resources which helped direct and promote the cell's mission in a more efficient and organized way.

Projects

- Personal Potfolio Website
- NFT Generator
- Wikipedia Article Generator
- Banking Portal
